PROGRESS OF THE SQUATTER SOVEREIGNTY DOCTRINE.—The Bangor Democrat, and its ally the Journal, declare themselves unreservedly in favor of the "great democratic doctrine of popular sovereignty." Now one of the National Democratic leaders in Congress,—from the North, too—(Mr. Jones of Pa.) has just given us a new reading of this doctrine, which it is very probable is to be adopted at the demand of the South. We should like to inquire of our neighbors, if they have advanced thus far?—If not, they will find themselves behind the "National" party, and ranking as "sectionalists."

We quote from Mr. Greeley's letter to the Tribune, of 24th:

To-day Mr Jones was pushed again in the course of Mr Cox's speech, with respect to "Squatter Sovereignty," which he finally threw square overboard. He affirmed the right of the slaveholder to carry his human chattels into any Territory, there to hold them as slaves and have his mastery over them affirmed and upheld by jurisprudence; and he was finally pushed on, step by step, to *deny unqualifiedly the right of the people of any Territory to exclude or abolish Slavery by any legislative or other act until they come to emerge from the "Territorial condition into that of a State."* This is a little further than I have ever before known a Northern man of any position to go, and Glancy seemed to feel that he was taking a fearful and irremediable step. There is but one beyond this—that of maintaining the constitutional right of the slaveholder to take his human "property" into any State of the Union, there to use and enjoy it. It is not quite time for this yet; but we are tending palpably toward it, and will reach this point ere many more years. Then Senator Toombs may call the roll of his slaves on Bunker Hill, with the United States Marshal at his elbow to enforce docility upon them, and a detachment of United States marines from the adjacent Navy Yard to shoot any that may attempt to run away.

New Publications.

TEN YEARS AMONG THE MAIL BAGS. By J. Holbrook. With Illustrations. Boston: Shepherd, Clark & Co.

This book, from which we have recently copied one or two narratives of Post Office robbery and detection, is written by Mr Holbrook, the Special Detective Agent of the P. O. Department. It is published with the approbation of the Department, for the purpose, apparently, of a warning to depredators,—as showing how nearly impossible it is for them to escape ultimate detection, and how little safety there is for them in tampering with even a single package of mail matter. The book is a most interesting one—being mostly filled with exciting narratives of the secret measures taken for the detection of rogues, by the Special Agent, and of his curious and sometimes thrilling adventures in the pursuit of his duty. Some of his stories are equal to those of Vidocq, the celebrated Parisian thief-catcher.

In addition to the well-told narratives of the volume, it contains a variety of matter relating to the Post Office laws and arrangements, which cannot fail to be regarded as seasonable in the present public discussion of the subject. Several of Darley's admirable sketches greatly enhance the effect of the volume.

For sale by D. Bugbee & Co.

THE HUNTERS' FEAST; OR CONVERSATIONS AROUND THE CAMP FIRE. By Capt. Mayne Reid. Beautifully Illustrated with Eight Engravings. New York: De Witt & Davenport.

To the admirers of wonderful stories of the hunter's life, this volume will be most welcome. It contains enough of astonishing adventures and hair-breadth escapes in the wild regions of the Great West, to feast the appetite for the marvellous; and is written in an attractive manner, by an author whose powers of description are well known through the medium of his other Western stories,—"The Rifle Rangers," "Scalp Hunters," &c.

The narratives are introduced thus. A party of six gentlemen, with their guides, all well versed in hunter life, start from St. Louis, west, into the great prairie, on a hunting expedition; in the course of which they themselves not only engage in many thrilling exploits, but as they bivouac for the night, each one around the camp-fire relates what of the wonderful and marvellous has befallen him in former hunting expeditions. Old Ike, the Wolf Killer, one of the guides, is an extraordinary as well as amusing character, and tells many wonderful tales of his prowess.

The book is for sale by Bugbee & Co.

NICARAGUA.—It is stated that intelligence has been received at Washington, in diplomatic quarters, from Nicaragua, which induces the belief that Gen. Walker will not be able to maintain permanently the existing military government. Guatemala has already contributed a force of several thousand militia, to be concentrated at San Juan. Costa Rica will also furnish a large military contribution, having made a requisition upon the population for five thousand men. The Central American States are constrained from the present exigency, which threatens their political existence equally with that of Nicaragua, to make common cause in resisting this freebooting invasion.

KENNEBEC COUNTY TREASURER.—By an error of the town officers of Sidney and Manchester, Sewall N. Watson has lost his election as Treasurer of this County and Daniel Pike has been declared elected. From Sidney 23 votes are returned for Sewall Watson (the "N." omitted) and from Manchester 35 votes for Sewall M. Watson.

OVER NIAGARA FALLS.—The Buffalo Courier has information from Chippewa, Canada, that two persons belonging to that village went over Niagara Falls on Friday last. They were out in a small boat fowling, and venturing too far into the current, were carried over the cataract.

FLORIDA.—The Governor of Florida has refused to approve the resolve to let Western Florida vote to annex itself to Alabama.

MR. EDITOR:—The communication below will doubtless meet a favorable response from your heart. Please publish it in our next issue or at your earliest convenience, that people may be considering its suggestions. The desire to be prometed is of itself the best apology for the request; and the consciousness of aiding an interest, infinitely important, but most lamentably neglected, will be an appreciable reward.

Boston, Dec. 1855.

A NEEDED MOVEMENT.—Two years ago, Rev. Warren Burton, of Boston, who is devoting himself to the cause of Domestic Education, proposed, through newspapers and circulars to the people of his own State, that there should be meetings during the more leisure season to discuss questions appertaining to Family Discipline, and to the relation of the Home to the School. In places, the measure was adopted with very gratifying results. Besides customary speakers, others made effective addresses who had never spoken in public before, and latent talent was unexpectedly brought out.—The young manifested peculiar interest, and were stimulated to new efforts for improvement. The relation of the home to the school, and of the school to the community, was better understood, and the cause of public education was advanced. Ladies sent in communications both instructive and entertaining, to be read on the occasions, showing that through similar opportunity, female talent in every town might be elicited, and put to noble use.

Now that the long evenings have again come, why shall not this most useful movement be carried, at once, beyond the State where it started?

[For the Whig and Courier.]

A Christian Act—A Pleasant Scene

MR. EDITOR:—It may not be known to many of your readers, that a Sewing School was formed about three years ago, in this city, by some benevolent and self sacrificing Ladies, for the purpose of teaching poor little girls to sew who would not be likely to learn this art elsewhere. Every week these Ladies have met with their pupils except in the hottest weather, and have had the satisfaction of seeing them make rapid improvement. So quietly have they wrought in this humble department of charity, that great numbers of our citizens do not even know of the existence of the school. Not only have they freely given their time, but often have they given cloth to their scholars, to be made up into articles of use and comfort.

To crown their beneficence, last Wednesday afternoon, they prepared a Christmas Tree, loaded it with beautiful and useful articles, and spread a table with apples, cakes, &c., very much to the surprise of the children as they came to their weekly school. Owing to the storm only about forty scholars were present—half of the whole number.

It was my privilege to be there and see the little folks as they marched into the room to the sound of the Piano with staring eyes and smiling faces. But few of them had ever looked upon a Christmas Tree bending beneath its weighty presents, and probably none of them had ever had a direct interest in one. Seldom have I ever looked upon a happier scene, or beheld anything more like true Christian benevolence. The Teachers enjoyed it quite as much as the wondering children.

After making way with countless apples, cakes, dough-nuts, and two or three quarts of parched corn, they came around the Tree to receive their presents with cheerful looks and grateful hearts, and at about sunset they left for home, carrying with them a pleasing remembrance of the christian deeds of their benefactors. If we had more in our midst to imitate such worthy acts we should have less ignorance, poverty, sorrow and crime, and more to rejoice the. We have among us those who imitate their great Teacher in going "about to do good."

One of the farmers on Essex street, in this city, has the past season raised enough marrowfat peas on two acres of newly broken land to supply his family with flour for the year. 'Tis cannot be very hard supporting a family, by farming at that rate.

C. M. Clay, in writing to the inventor of a new corn mill, tells him that he has done more for his country than any twenty members of Congress for the last twenty years.

PRO BONO PUBLICO. So much good has resulted from the use of Devine's Compound Pitch Lozenges, that the proprietor have been induced to sell them at 25 cents a box. They never fail in curing coughs and colds. All druggists have them.

ANOTHER PRINCELY DONATION BY A BOSTON MERCHANT.—We learn that Joseph Bradlee, Esq., one of our oldest and most highly esteemed merchants, has given the sum of $10,000 to the "Sailors' Snug Harbor of Boston," for the purpose of erecting a suitable asylum, and for the support of decrepid seamen, on condition that the further sum of $10,000 be subscribed for the same purpose on or before the first day of February next. We have no doubt that our liberal minded citizens will see that the condition necessary to secure Mr. Bradlee's donation is fulfilled.—*Boston Times.*

SPUNKY.—A Western editor gives a contemporary the following rather strong hint:—

"The editor of the Social Visiter speaks of us as a *retired* dentist, and volunteers a little advice, suggesting that we let politics alone, and stick to our profession. We beg to inform the gentleman that we pull teeth at the usual rates, and the noses of impertinent meddlers for nothing."

ABSCONDED.—A correspondent of the Herald, at Waterville, Me., writes that an extensive dry goods dealer of that place has absconded. His liabilities are over twenty thousand dollars, and he is supposed to have gone to California.

CONFIRMATION OF THE FATE OF THE FRANKLIN EXPEDITION.—The Telegraph has given us a brief statement of the result of a new searching expedition sent out under direction of the Hudson Bay Company, to ascertain the truth of Dr Rae's report of last spring. We have the details by papers:

The expedition consisted of a party of sixteen Red River men of the North, three Indians, and Messrs. James Green Stewart and James Anderson as joint commanders.

The party started on the 7th of February, 1855, and proceeded to Fort Chipewyan, at the head of Lake Athabasca, where they arrived on the 5th of May, and remained until the 28th of May, being engaged in constructing boats, in which to execute their dreary journey. At that date the party journeyed by canoes through Peace River to Fort Resolution, in Slave Lake, where another halt was made, to complete the last preparations before attempting to penetrate the icy regions of the North. On the 23 day of June they started again for the head of Great Fish or Black River, in latitude 64deg, and followed the stream to the Arctic Ocean, in their birch canoes, arriving on the 30th of July.

Here they met with Esquimaux, who corroborated the reports of Dr. Rae, and directed them to Montreal Island, a short distance from the mouth of Black River, as the spot where, according to their instructions, they were to commence minute exploration. From this time until the 9th of August, the party were industriously engaged in searches on the Island, and on the main land, between 67deg and 69deg north latitude. We cannot recapitulate the perils escaped, and privations endured by the brave band, while seeking to find traces of their countrymen who had perished on those desolate shores.

Three times they providentially escaped being "nipped," as Mr Stewart expressed it, or crushed between moving mountains of ice.—At last on Montreal Island, where their explorations commenced, they found snow shoes known to be of English make, with the name of Dr. Stanley, who was the surgeon of Sir John Franklin's ship, the Erebus, cut in them by a knife. Afterwards they found on the same Island a boat belonging to the Franklin expedition, with the name "Terror" still distinctly visible. A piece of this boat containing this name was brought along with him by Mr Stewart.

Among the Esquimaux were found iron kettles, corresponding in shape and size with those furnished the Franklin expedition, and bearing the marks of the British government.—Other articles, known to have belonged to the expedition, were obtained from the Esquimaux, and brought by the party for deposite with the British government. No bodies, however, were found, or traces of any. The report of the Esquimaux was, that one man died on Montreal Island, and that the balance of the party wandered on the beach of the main land opposite, until, worn out by fatigue and starvation, they, one by one, laid themselves down and died too.

The Esquimaux reported further that Indians far to the north of them, who had seen the ships of Franklin's party and visited them, stated that they had both been crushed between the icebergs. Mr. Stewart took especial pains to ascertain whether the party had come to their death by fair means or foul. But to every inquiry, the Esquimaux protested that they had died of starvation.

Gathering together the relics found, the party set out on their return on the 9th day of August last.

And so, at last, the mystery is solved. Brave Sir John, whose fate has awakened the sympathizing curiosity of the civilized world, is now known "asleep his last sleep," by the shores of the frozen seas through which icy islands he had vainly sought to pass. "If our winters back, as the Esquimaux said, the noble party, after escaping from the ships which could no longer float on those dangerous seas, found release from suffering in death. Died manfully, too, as they had lived, bravely like true Englishmen; this much we may believe, for consolation, that they met their fate as became spirits adventurous and noble. No traces were found by the Esquimaux to indicate that even in their last extremity they had forgotten their manhood, and preyed on one another.

THE NEW FILLIBUSTERING OPERATION.—We copy from the Tribune of 25th, the following statements in regard to the new movements said to have been discovered by the U. S. Government, and which led to the recent detention of the steamer Northern Light.

Yesterday we gave the particulars of the arrest, flight and recapture of the Nicaragua Transit Company's steamer Northern Light.—We have since obtained some very important information in regard to the action of the United States Government in this matter. The United States authorities have been furnished with affidavits and documents—which they deem irrefutable—showing that a wide-spread movement has been commenced all along the Atlantic sea-board of the United States to send men and arms to Nicaragua, for the purpose of organizing an army in that State, to descend upon Cuba and San Domingo, and wrest them from their present possessors. After the consummation of this design, the parties interested in the movement propose to unite into one confederacy the State of Nicaragua and such other portions of Central America as may be acquired by conquest or otherwise, Cuba and San Domingo, and either to set up a separate republic, or to apply for admission into the American Union as Slave States. It is alleged that thousands of the most reckless adventurers in the Atlantic cities have already been enlisted in this movement, and that the ranks of the would-be invaders are daily augmented by extensive accessions from the interior. And it is further alleged, that Walker cares not a thing for Nicaragua, any further than as she may prove serviceable as a gathering point for the invading army. So far as we can learn, this information is supposed to have come into the possession of the United States Government through the treachery of the men who was to have gone out as general of the expedition. How true this may be we have no means of judging; but that this person is said to have revealed the plans of the Cuban Junta—the Junta, by the way, is charged with being at the bottom of the whole affair—that he was visited at his own house in Brooklyn, after midnight, a few nights since, and dragged from his bed by armed ruffians; and he would have been slain had he not seized a timely opportunity to escape from their bowie-knives, is well known.

MR SHARP was sick. Well nigh to death's door was Sharp. He knew it, and was prepared for his "last operation," as he called it, for Sharp was a broker and a wag. He called to his son, who came to his bedside with a look of sorrow. Sharp reached out his thin fingers, and touched his son's hand in a tender manner. "My boy," said he, "I am going to leave you something." The son thought it likely, as he never dreamed of his father's taking it all with him, but he looked sad and properly down, at a second of the calico quilt on the bed about as big as a dollar. "Bring me the tin box on the mantlepiece," said Sharp. He son obeyed. "There," said Sharp, taking therefrom three slips of paper, "that's something to remember me by when I'm gone. Don't look at it till then." Three days after, Sharp departed. His son, with filial regard, did not open the papers till that time, when he found them to be three second mortgage bonds of the Vermont Central Railroad. He blessed his father's memory for leaving him *something no one would take from him.*—*Boston Post.*

MATRIMONIAL RUMORS IN PARIS.—A Paris letter mentions the following rumors: "General Canrobert, as I am told, is about to marry a daughter of one of the physicians of the Emperor, a beautiful lady, thirty-two years of age, who has hitherto rejected all proposals of marriage, and who will bring to General Canrobert, as a dowry, an income of one hundred and fifty thousand francs. This is a match of the Emperor's making. He has made several such matches for his friends and the former companions of his political vicissitudes, often making additions to their dower from his private treasury.

Speaking of matrimony, people say now (though this report has already been in circulation before) that M. de Morny is about to marry a young American lady, without fortune. The antecedents of M. de Morny are already known to you. He is generally regarded as the son of Queen Hortense, the mother of Napoleon III. He executed the *coup d'etat* of the second of December. He was at that time Minister of the Interior. He retired from his place through dissatisfaction at the decrees which impoverished the family of Orleans. He has become President of the second time of the Chamber of Deputies. He has a fortune of fifteen millions of francs, acquired in speculations, and which he is disposed, it is said, notwithstanding his former bachelor connections with the court, to give to this young and obscure American lady. He is encouraged to the step, by the success of the love match of the Emperor, who has profited much, all I have already said, by what was regarded at first as an unworthy alliance."

THE BURMESE RUBY.—A correspondent of the Calcutta Citizen, speaking of the reception of the English Embassy by the Burmese King says:—"The only thing remarkable at this interview was only animate object, and that was a ruby in the centre of the pagoda crown of his Majesty. It was as large, if not larger than a hen's egg, and far more valuable than the great Kohinoor. It was beautifully cut, and almost as round as a marble. It was torn off the ear of the Karen Queen, by Alompra. It was a pendant, being suspended by a wire casing through her right ear. It is of the purest water, and more than two thousand years old, if the traditions concerning it are to be believed. It came originally from Assam, and belonged to the great Gautama King Moung Sa, who ruled the whole of Asia. In this 'This ruby will, I prophecy, in ten years, be worn by our Queen.' And without any compunctions of conscience, of course John Bull has little respect for the command against covetousness."

A NEW WHIG.—A day or two ago a tall blear-eyed individual, rather lean in flesh and apparel entered the Custom House, and inquired if "Jan Hahman the Collector" was within. Upon being answered in the negative, he continued—"I should you, here do let's you don't know what I want of him." The person to whom he addressed himself confessed his ignorance in that respect. "Well then, I'll tell you," said the stranger, "though it's none of yer bizness either. I've a friend in jail, do yer mind, and if I could see Jan Hahman, wouldn't he give me a writ of Corpus Christy to get him out? Fax he would." Having thus explained the object of his visit, he made an abrupt exit, probably to seek a Corpus Christy elsewhere.—*Detroit Advertiser.*

DEATH FROM HYDROPHOBIA.—A CHILD BITTEN BY A CAT.—The Lockport Journal relates the following distressing case. A little girl, aged three years, living on Monroe street, died on Wednesday evening from the effects of a bite by a rabid cat. She was bitten some five weeks since, over the eye, the wounds exhibiting the prints of the teeth. The cat had been bitten by a dog, which was ascertained to be rabid, and the parents, being alarmed, submitted the case to Dr. Moore, of Gasport.

No decided symptoms of the horrible disease, however, were manifested until Saturday last, the 15th, when drowsiness and nervous excitability at the approach of fluids were exhibited by the child. On Sunday the poor sufferer grew wild and frantic, and during the day was thrown into violent spasms. The convulsions which shook the frame of the patient were redoubled, with frightful intensity at the approach of fluids; every nerve repelling its demand with spasmodic horror.

The disease on Monday exhibited still more definite symptoms of madness, a flashing of the eye and frothing of the mouth accompanying the convulsions. Drs. Leonard and Gould were called and administered chloroform, which temporarily produced a quieting effect—but relief was beyond the skill of man. The awful sufferings of the child were protracted until Wednesday evening, when it was relieved by death.

FEMALE MONSTER.—The tribunal of Potsdam, Prussia, lately pronounced sentence of death on the widow of a surgeon named Madger de Kein. She was found guilty of complicity in poisoning her husband, of complicity in poisoning the female companion of her lover, the barber Kager, of murdering the son of Kage with a hatchet, of having excited to the murder of the daughter of the said Kage, and also of her own son. Her head was cut off by the common executioner.

SUICIDE.—Edward Jones, a man about 35 or 40 years of age, residing in the northern part of Brunswick, hung himself yesterday morning. He was a farmer in good circumstances, and no cause is assigned for the commission of suicide.—*Bath Tribune.*

KILLED.—We learn that a man was killed in Newport Village on Friday last. The individual, whose name we did not learn, resided about two miles from the village. He walked into Newport, on business and found an opportunity to ride home with one of his neighbors. Soon after starting, the horse became frightened, and in attempting to jump from the wagon, he struck his foot against the wheel and fell head foremost, striking his temple upon the ground. He got up and got another man to carry him home, but became speechless soon after entering the house, and died in a short time.—*Skowhegan Clarion.*

MARINE DISASTER.—Schooner R. H. Bray, (of Millbridge, Me.) Bray, from New York for Jacksonville, in ballast, was fallen in with 18th inst., lat 36 50, lon 75, having been capsized in a squall 36 hours before. Capt. Bray and three men were taken off by barque Resolute, from Boston, and carried to Savannah 20th.—One man, John Morris, a native of Cardiff, Wales, was lost.

Holloway's Pills, an undoubted remedy for Asthma. Mr Silas Wilson, of Brooklyn, N. Y., had for five years very severe attacks of asthma, which deprived him of bodily rest night and day. The cough at times almost choked him and caused him continually to spit blood. He was never safe either eating or drinking, and his family were at times beyond measure to see him gradually reduced to almost a skeleton. Holloway's Pills, in his case, were as usual efficacious. The gentleman has used them for eleven weeks, and they have effected a perfect cure. He feels himself stronger now than he has been for the last fifteen years.

—FOR—

Purifying the Blood, removing all diseases from Excess of Mercury, Exposure, Imprudence in life, chronic constitutional disease arising from an impure state of the Blood, the only reliable and effectual remedy known for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of the medicines to be able to state that it is now over 16 years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patients and practitioners the highest degree of satisfaction in the various cases in which they have been employed, whether in city or country, hospital, or private practice. They have in every case the most decided and uniform success. It has produced the most salutary effects in all cases. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and the many cures over other preparations for such complaints as they prescribe for recommends. Numerous preparations of Sarsaparilla and Buchu, and all seem to [illegible], rating them have been given and all which will differ according to the mode of preparation, which each individual may adopt.

These medicines require considerable time in the preparation and the employment of distilled menstrua in successive operations to take up all the extractive matters, and in consequence, are frequently improperly made and not entirely much impaired. It is not rendered all the injurious and unskilful manner, from those unacquainted with pharmacy. It is, therefore, of the highest importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evil I allude to, I have made a number of experiments to obtain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles, and are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. A tablespoonful of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup of Sarsaparilla or decoction, as usually made.

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5.
" " Sarsaparilla " "

Certificates of cures and recommendations from distinguished professors and physicians, will accompany each preparation. Prepared and sold by H. T. HELMBOLD, *Practical and Analytical Chemist*, No. 263 Chesnut st., near the Girard House, Philadelphia.

To be had of Druggists and dealers in every portion of the United States and Canada.

All letters for the medicine directed to the proprietor, receive immediate attention, and advice guaranteed.

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA AND CHOLERA MORBUS yield at once to its magical influence. Again we repeat, TRY IT—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success do not despair—relief is now at hand. Are you suffering from Scrofula six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect it that you desire. If you are afflicted with Rheumatism, Neuralgia, or other local pains, two bottles will free you from them.— All humors will be eradicated from the blood by the use of from one to six bottles. In short if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

KENNEDY'S

MEDICAL DISCOVERY.

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will cure the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach,

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case It has already done some of the greatest cures ever done in Massachusetts He gave it to children a year old, to old people of sixty and has seen puny looking children whose flesh was soft and flabby restored to a perfect state of health by one bottle

To those who are subject to sick headache, one bottle will always cure it It gives great relief in catarrh and dizziness Some who have taken it have been costive for years and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week — There is never a bad result from it—on the contrary when that feeling is gone you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY Sept 19, 1853

This is to certify that H H HAY, Druggist, Portland is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory

The most important discovery ever made in Medical Science being a compound of Barks and Roots, which forms the most powerful safe, and agreeable physic ever offered to the public

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHEA AND CHOLERA MORBUS yield at once to its magical influence. Again we repeat TRY IT —it needs no other recommendation but an trial will be with us it after they have properly tested its merits. TESTIMONY FROM MAINE

Capt Daniel Abbott Franklin Maine, July 16, 1853 says "I was taken sick one year ago last April upon my passage from Havana to Charleston, S C At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper having your advertisement of Hoofland s German Bitters in it, I sent for some immediately This was about 10 o clock, at 11 o clock I took the first dose, and another at 6 o clock The effect was so rapid on me that I had a good appetite for supper and rested well that night and the next day found me a well man — I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since I have now given up going to sea and reside in this place, where you should have an agency, as you could sell large quantities of it

Joe B Hall & Co Presque Isle, Aroostook Co., Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story

Messrs Joe B Hall & Co —Gentlemen—In answer to your inquiries I will state that my daughter aged about 16 years, has been complaining of a pain in her side for six or seven years and about the first of January last was taken down and confined to her bed! The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast From reading a number of cures performed by Hoofland's German Bitters I was induced to try them in her case and sent to your store and purchased *one bottle* She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years — She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases
